Matilde Rodrigues N°119714

MOTION SUIT

Our project involves developing a suit equipped with sensors that measure body posture and detect anomalies

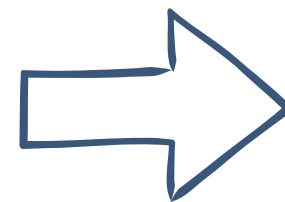

PERSONAS

As a
Suit User

I want
View statistics on
dashboard

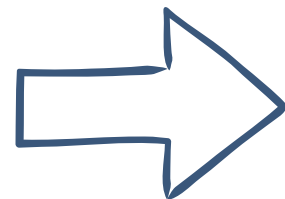

So that
I can see my posture data
over time

Researcher

Access all collected
information

I can identify postural
deviations and abnormal
patterns

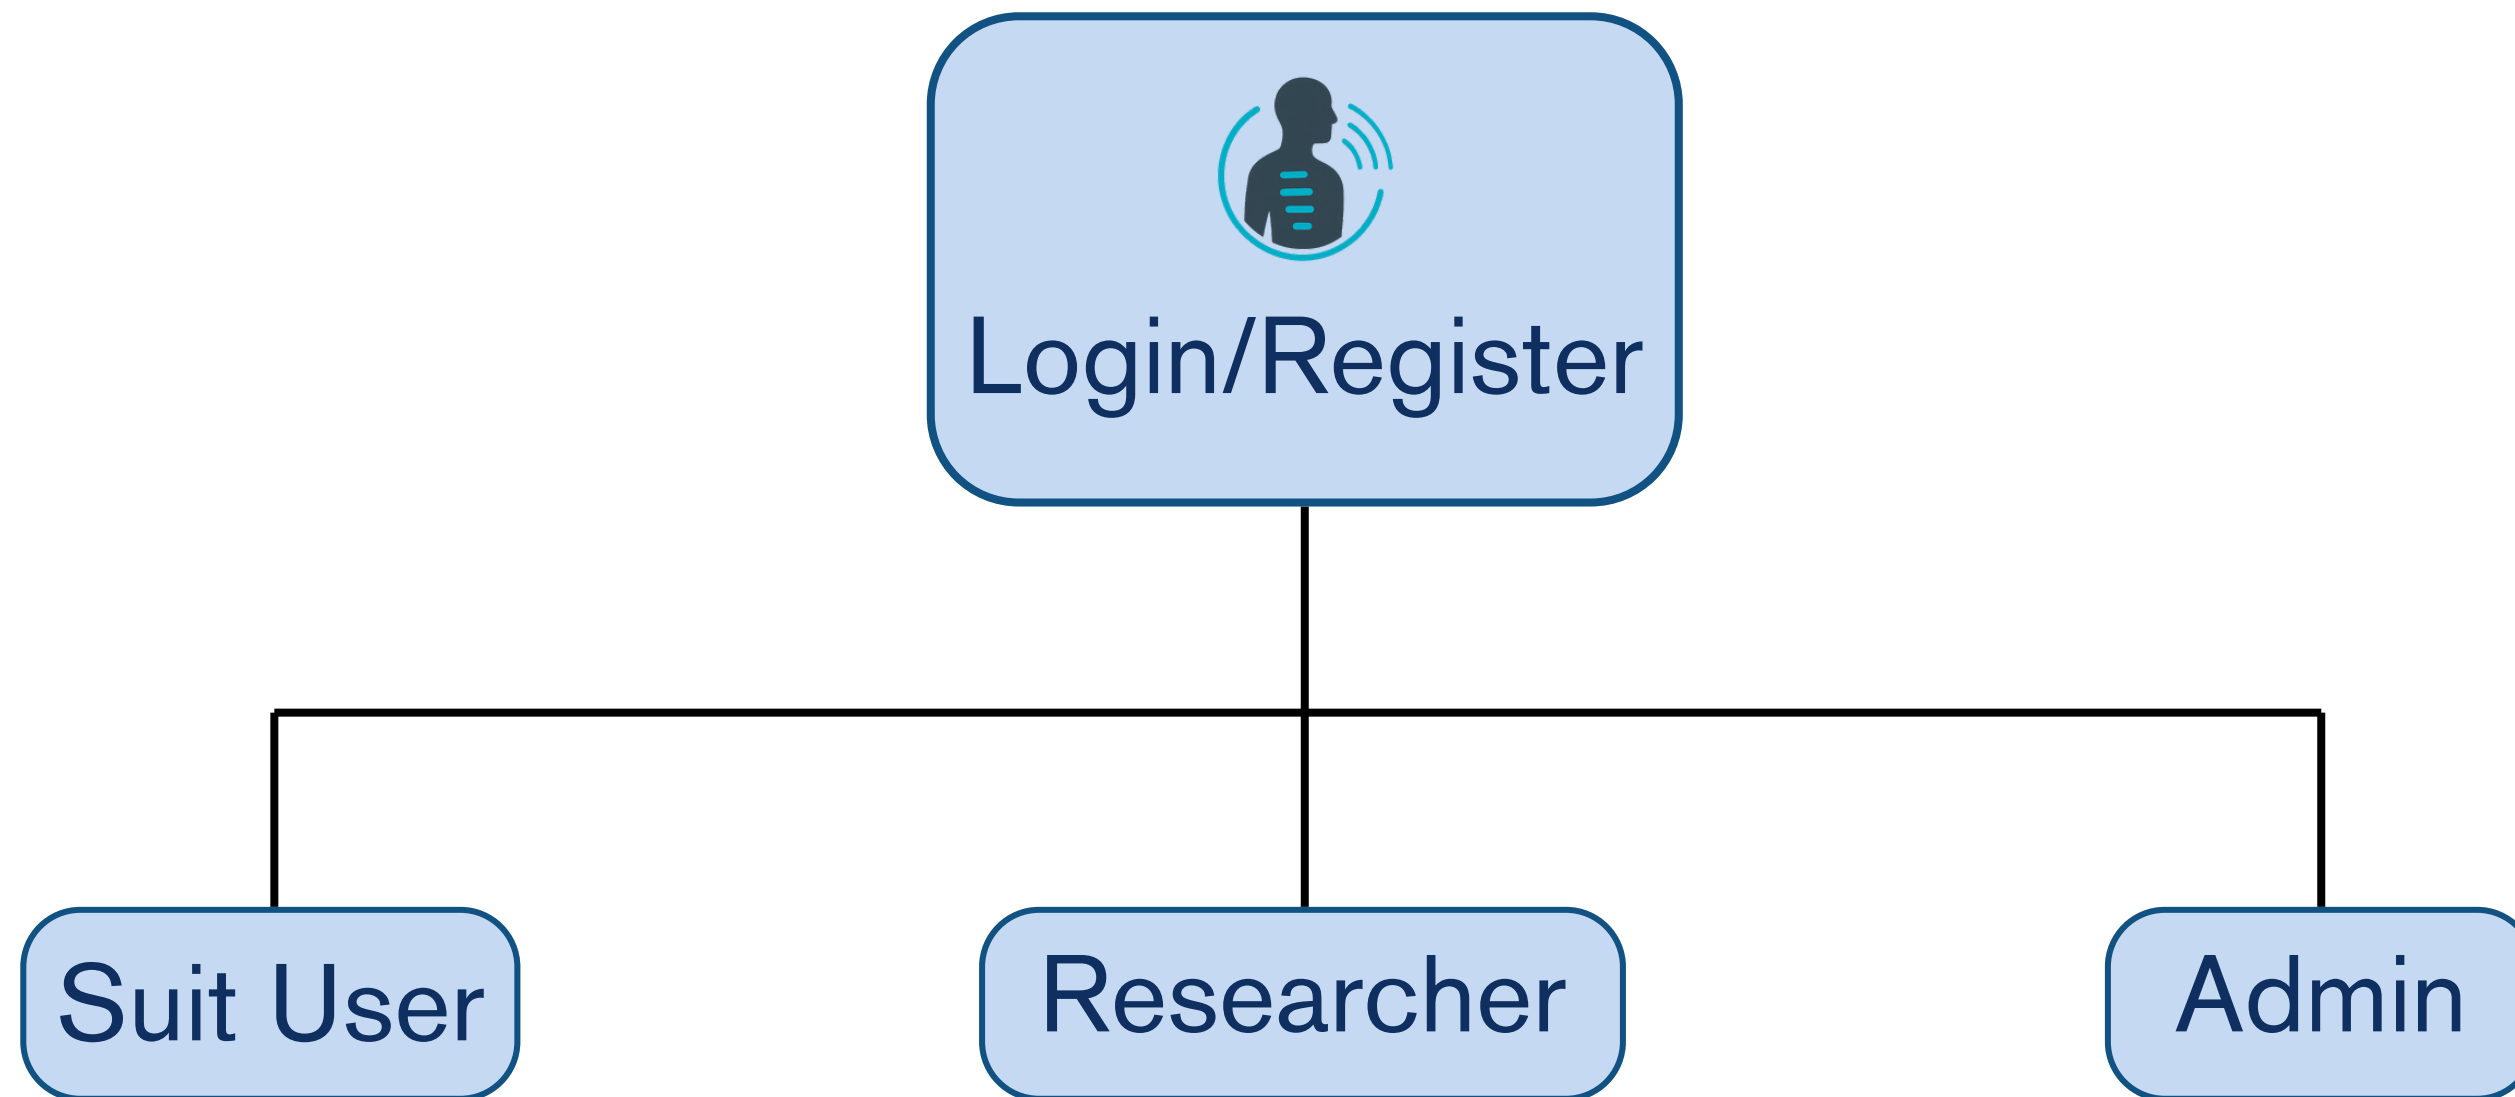

Administrator

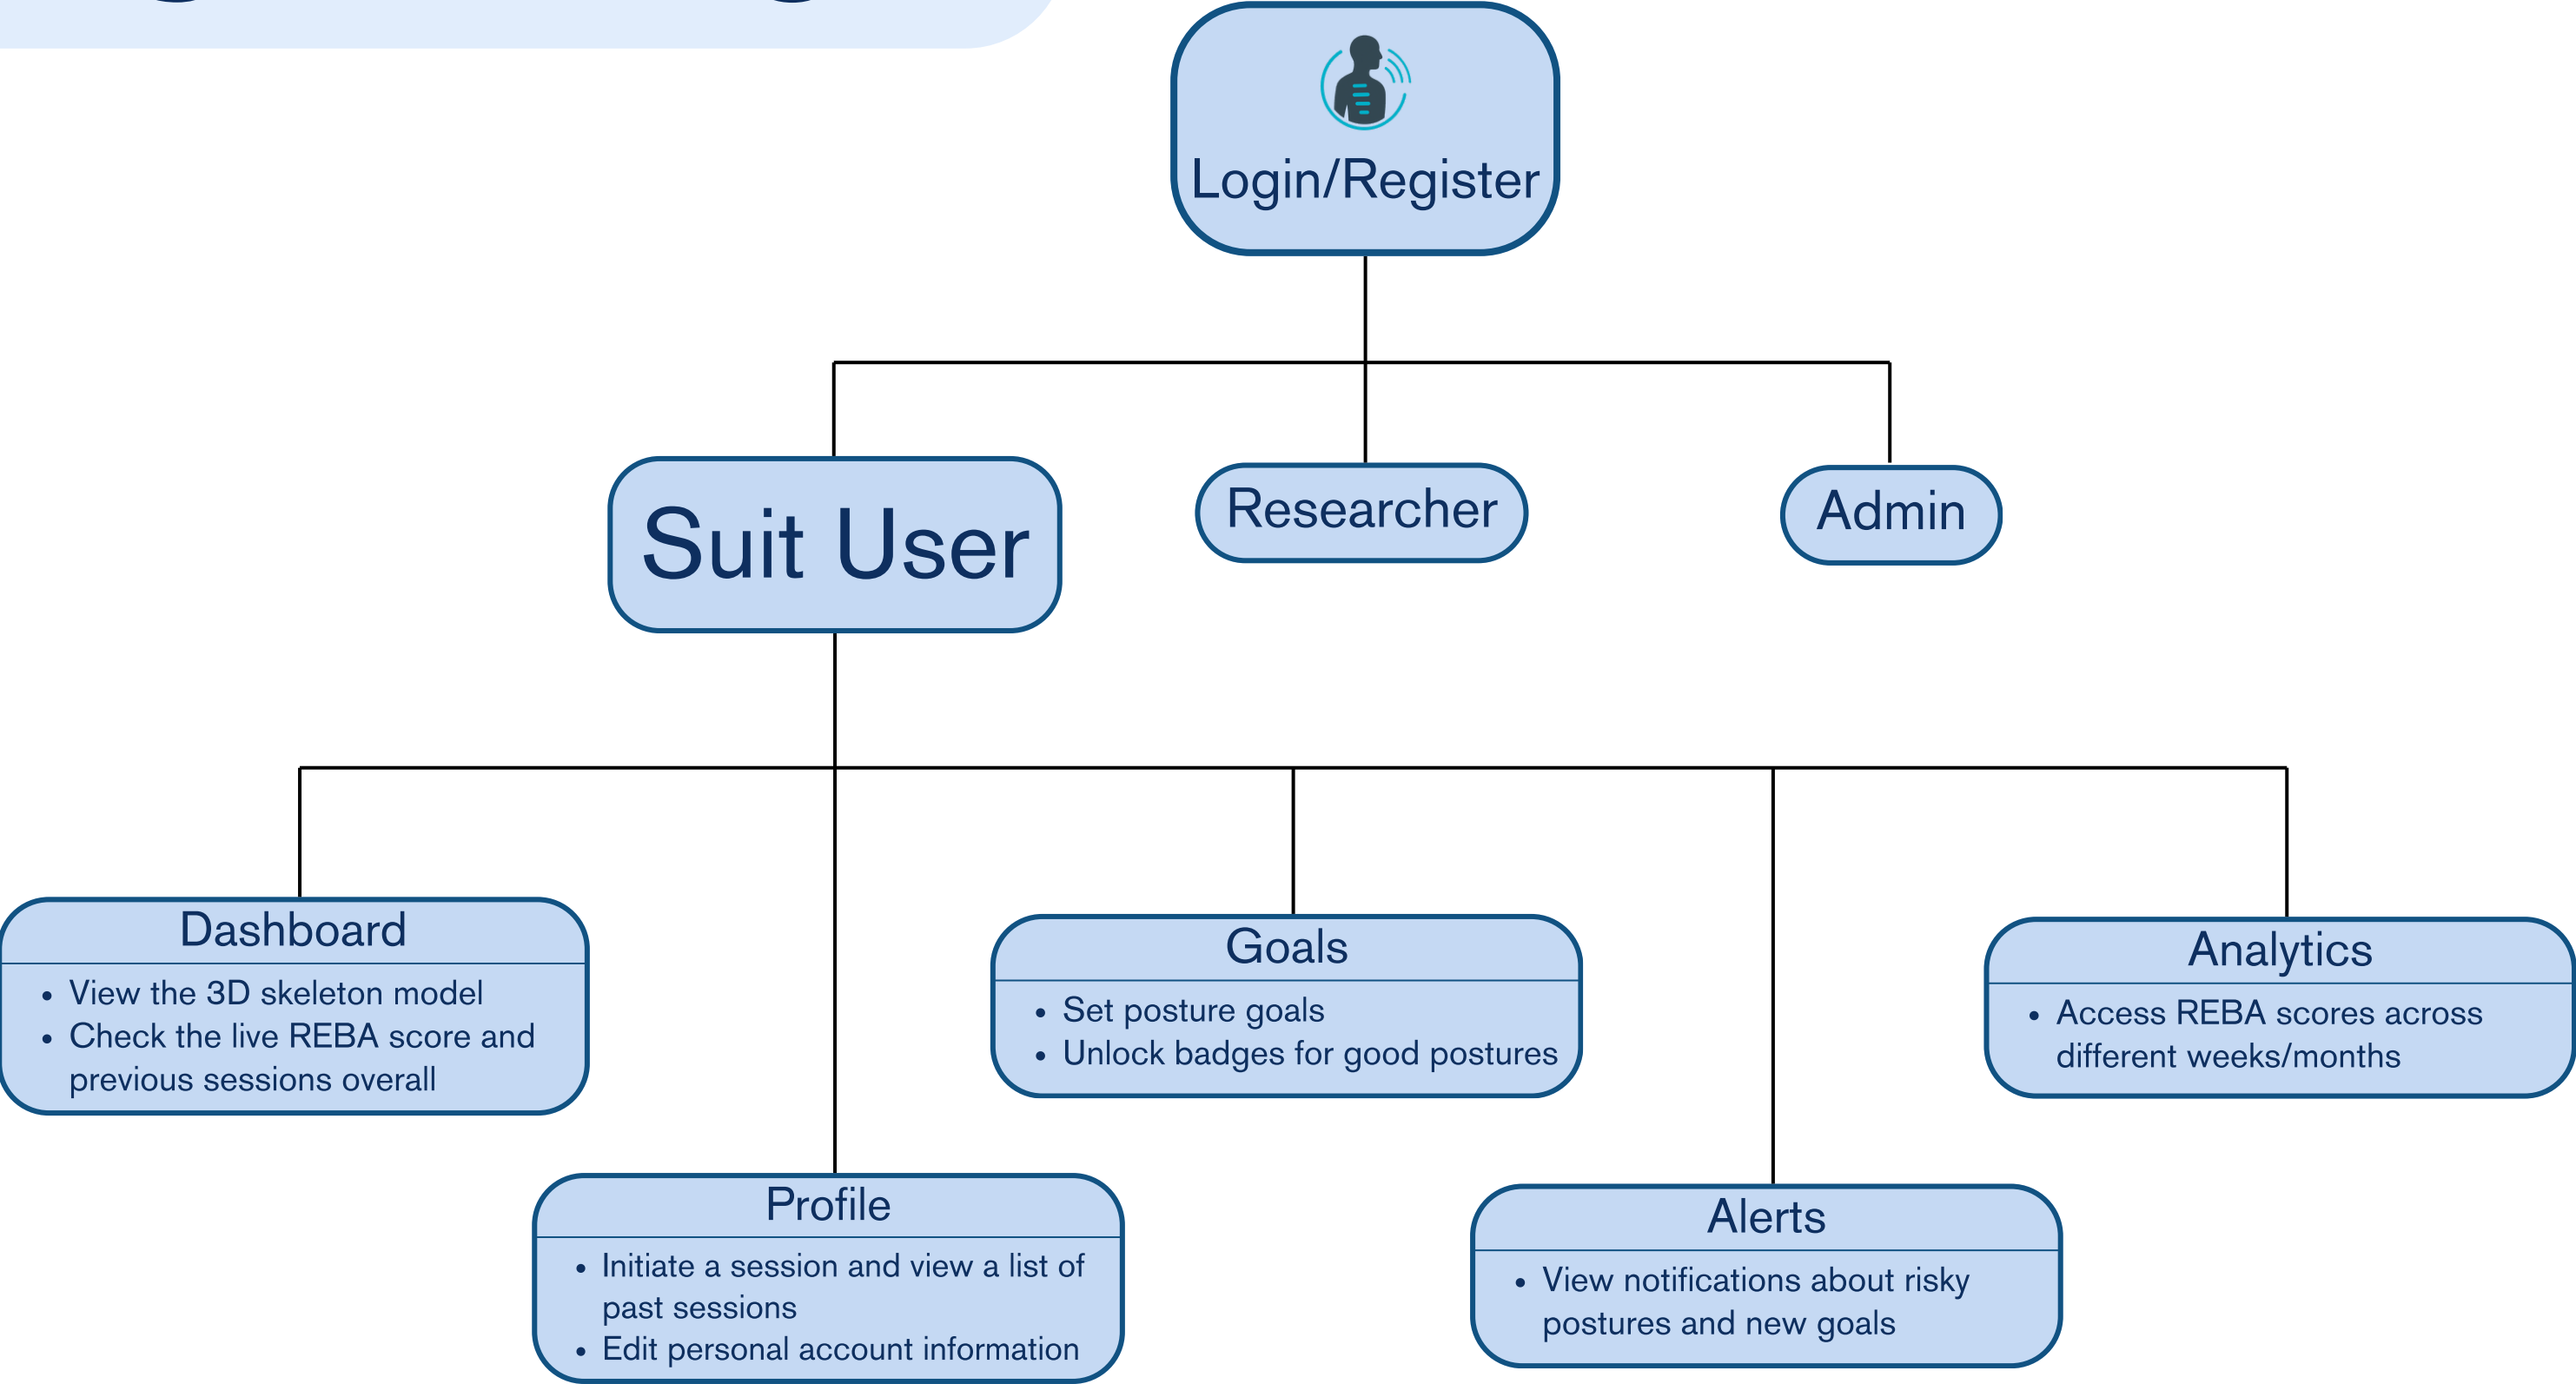

To manage user
accounts

I can control access and
provide support

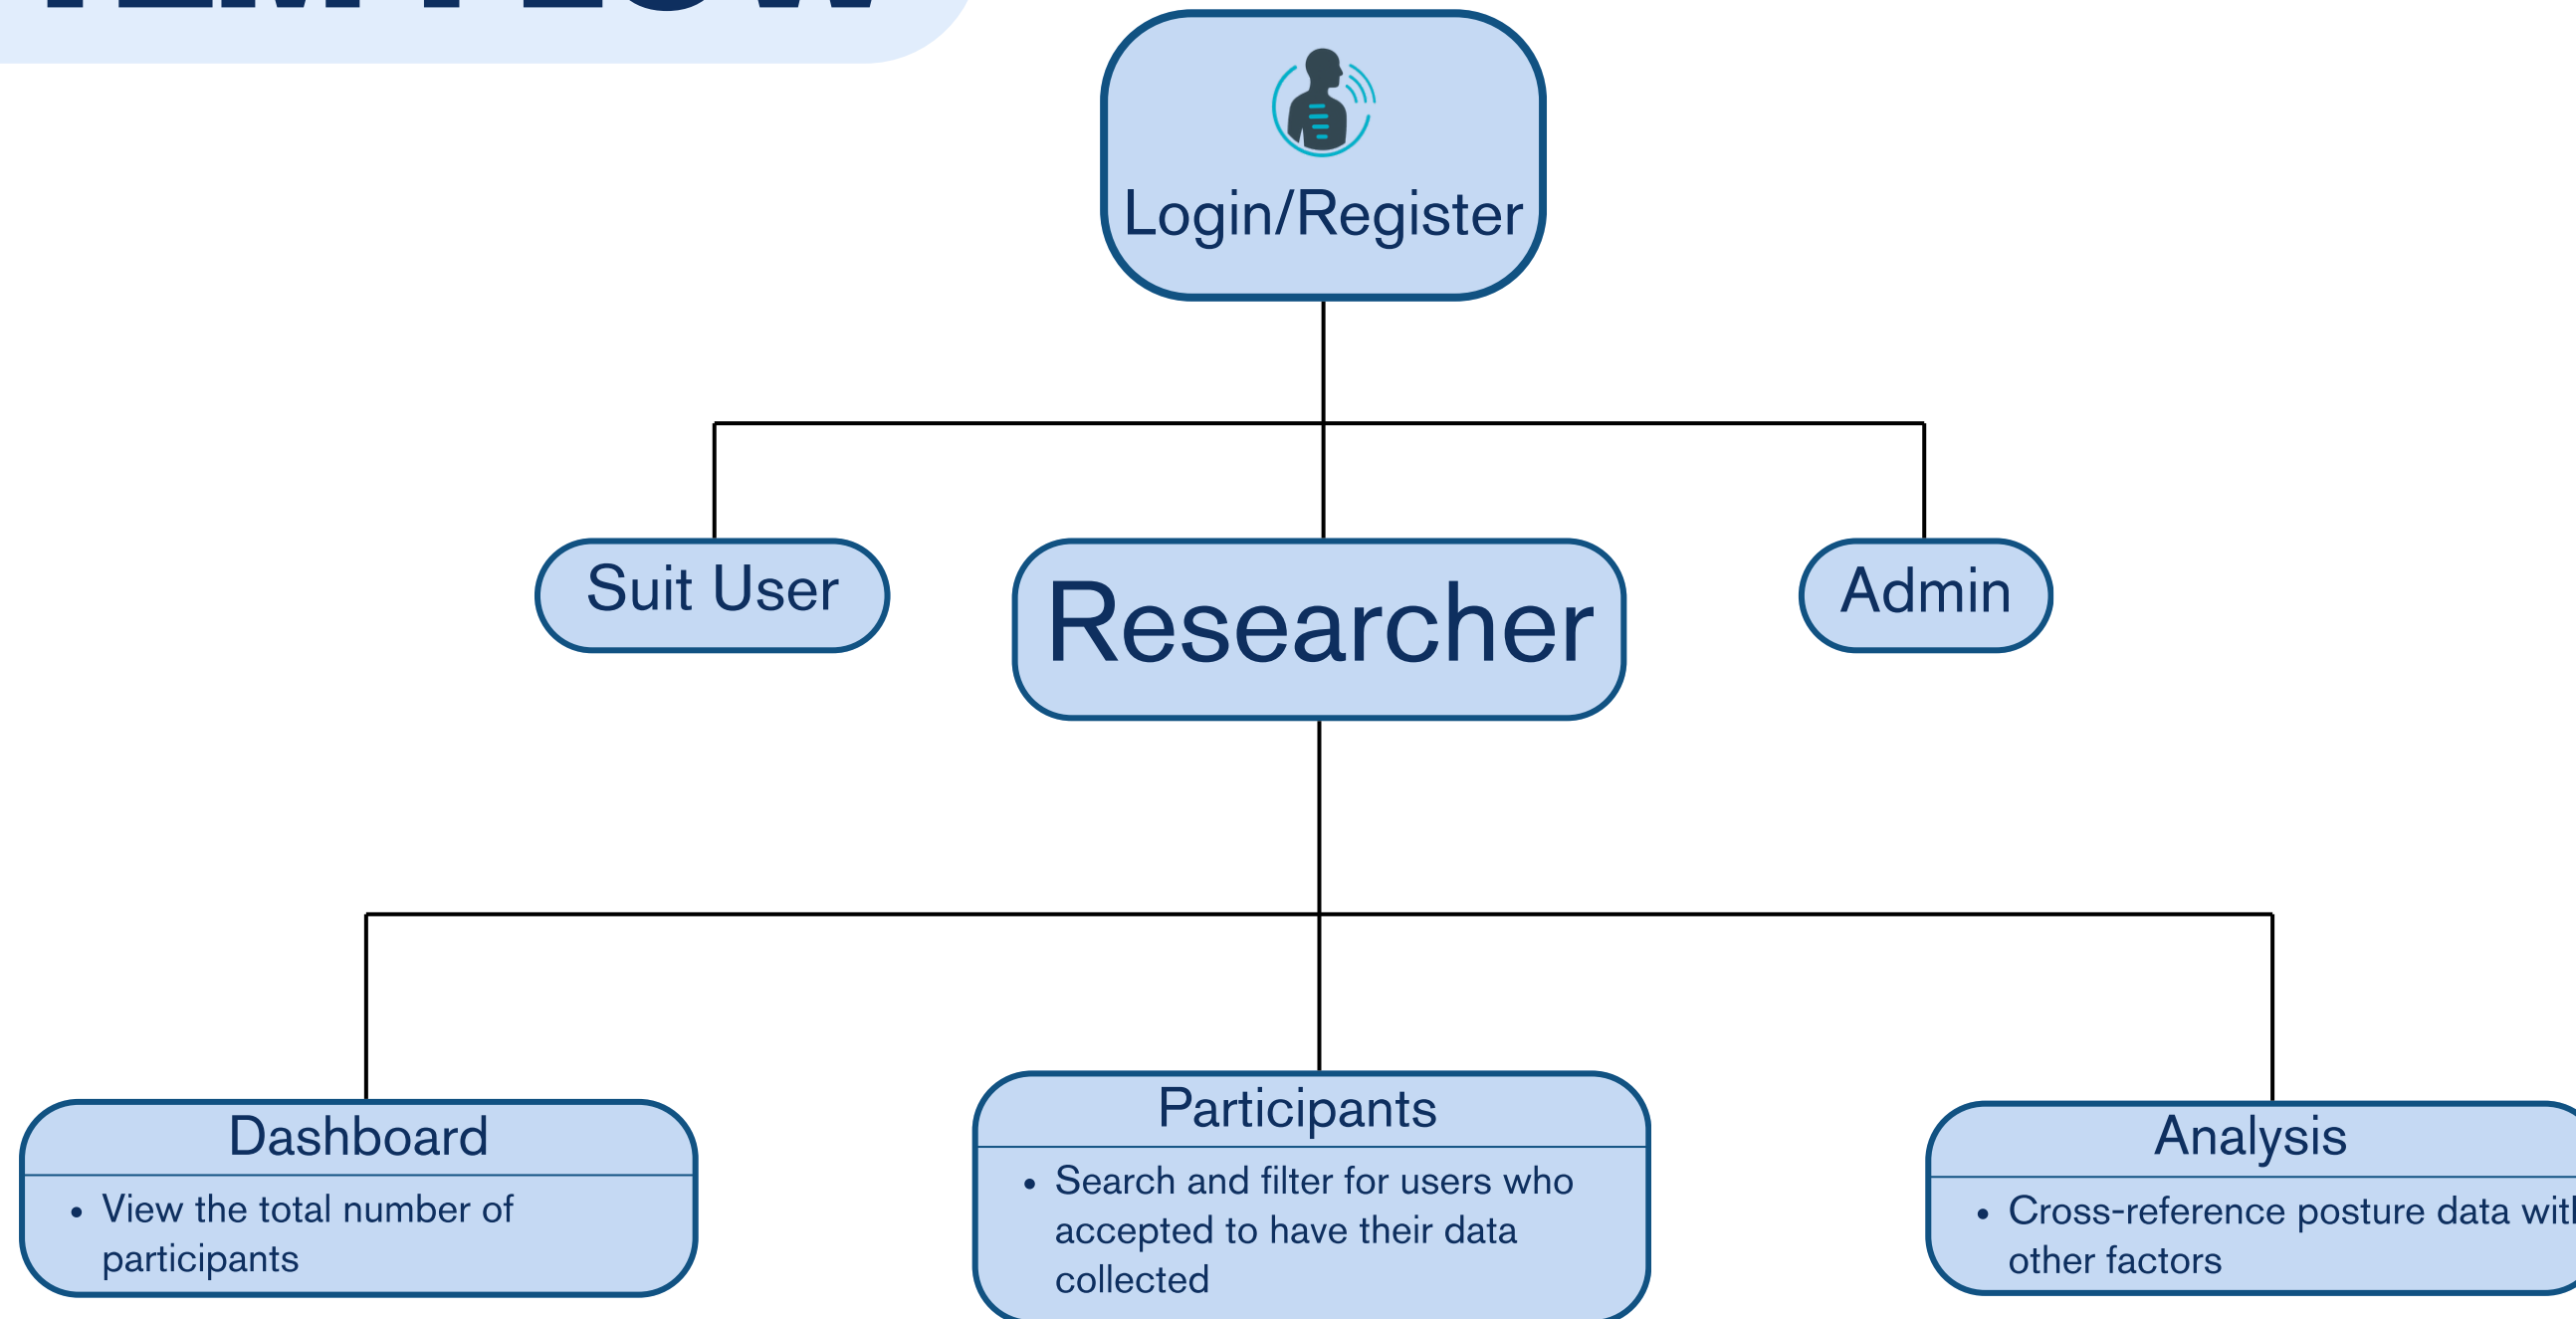

SYSTEM FLOW

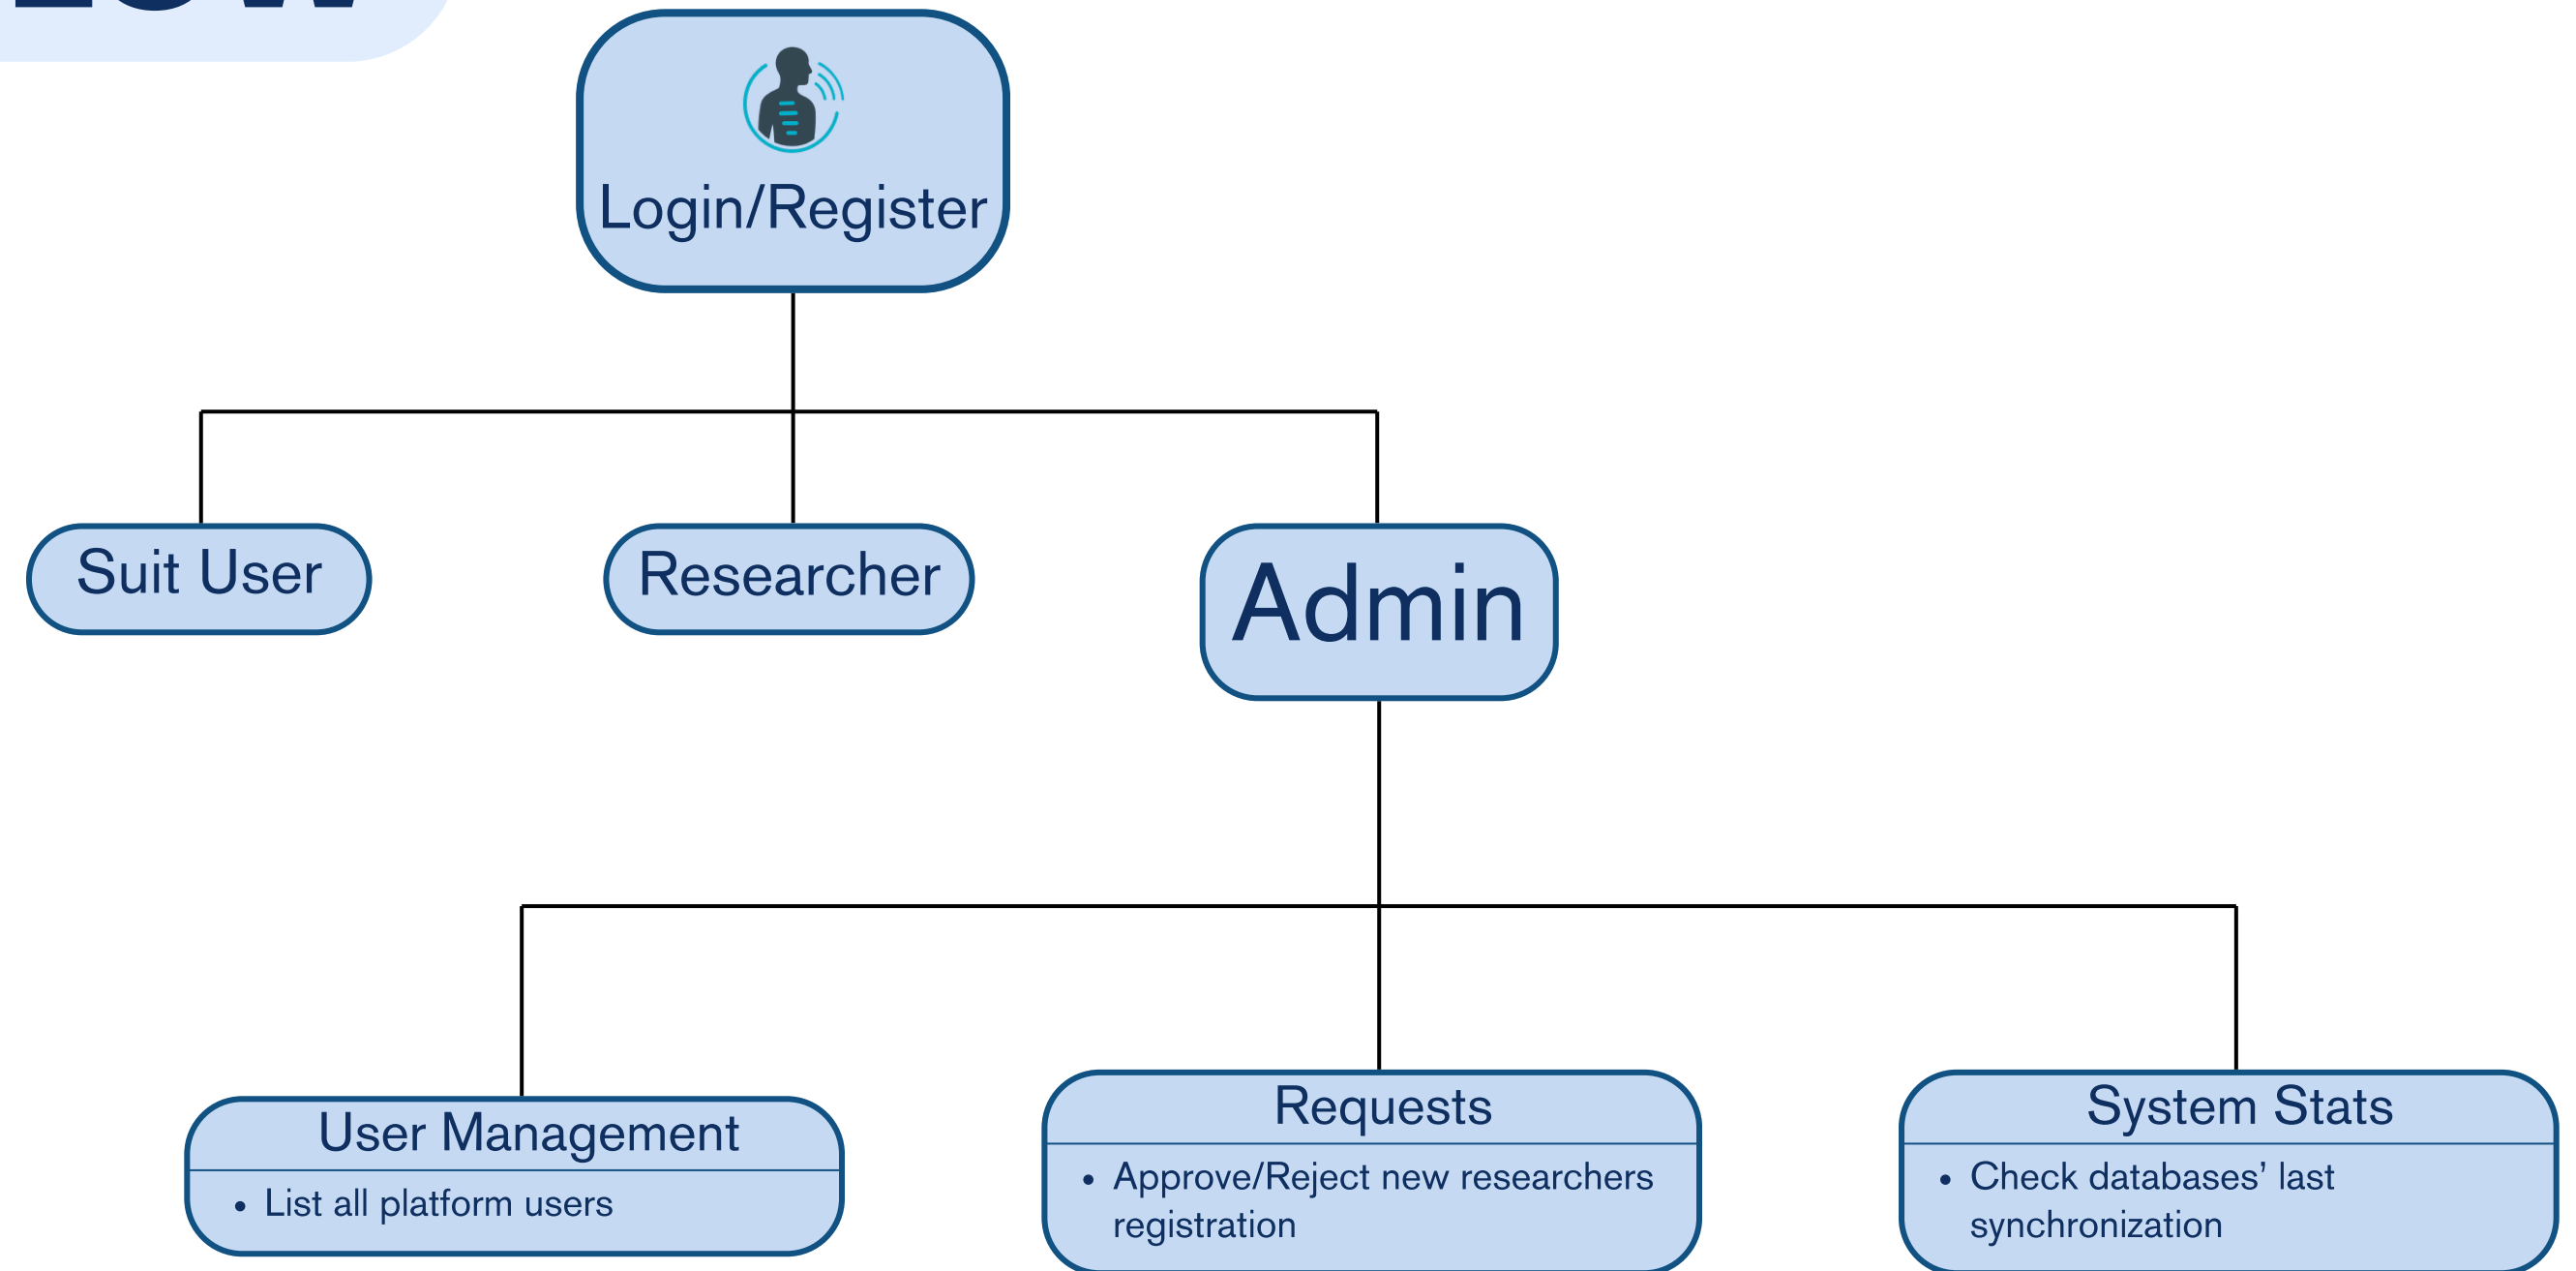

SYSTEM FLOW

SYSTEM FLOW

FEEDBACK

from the 1st seminar

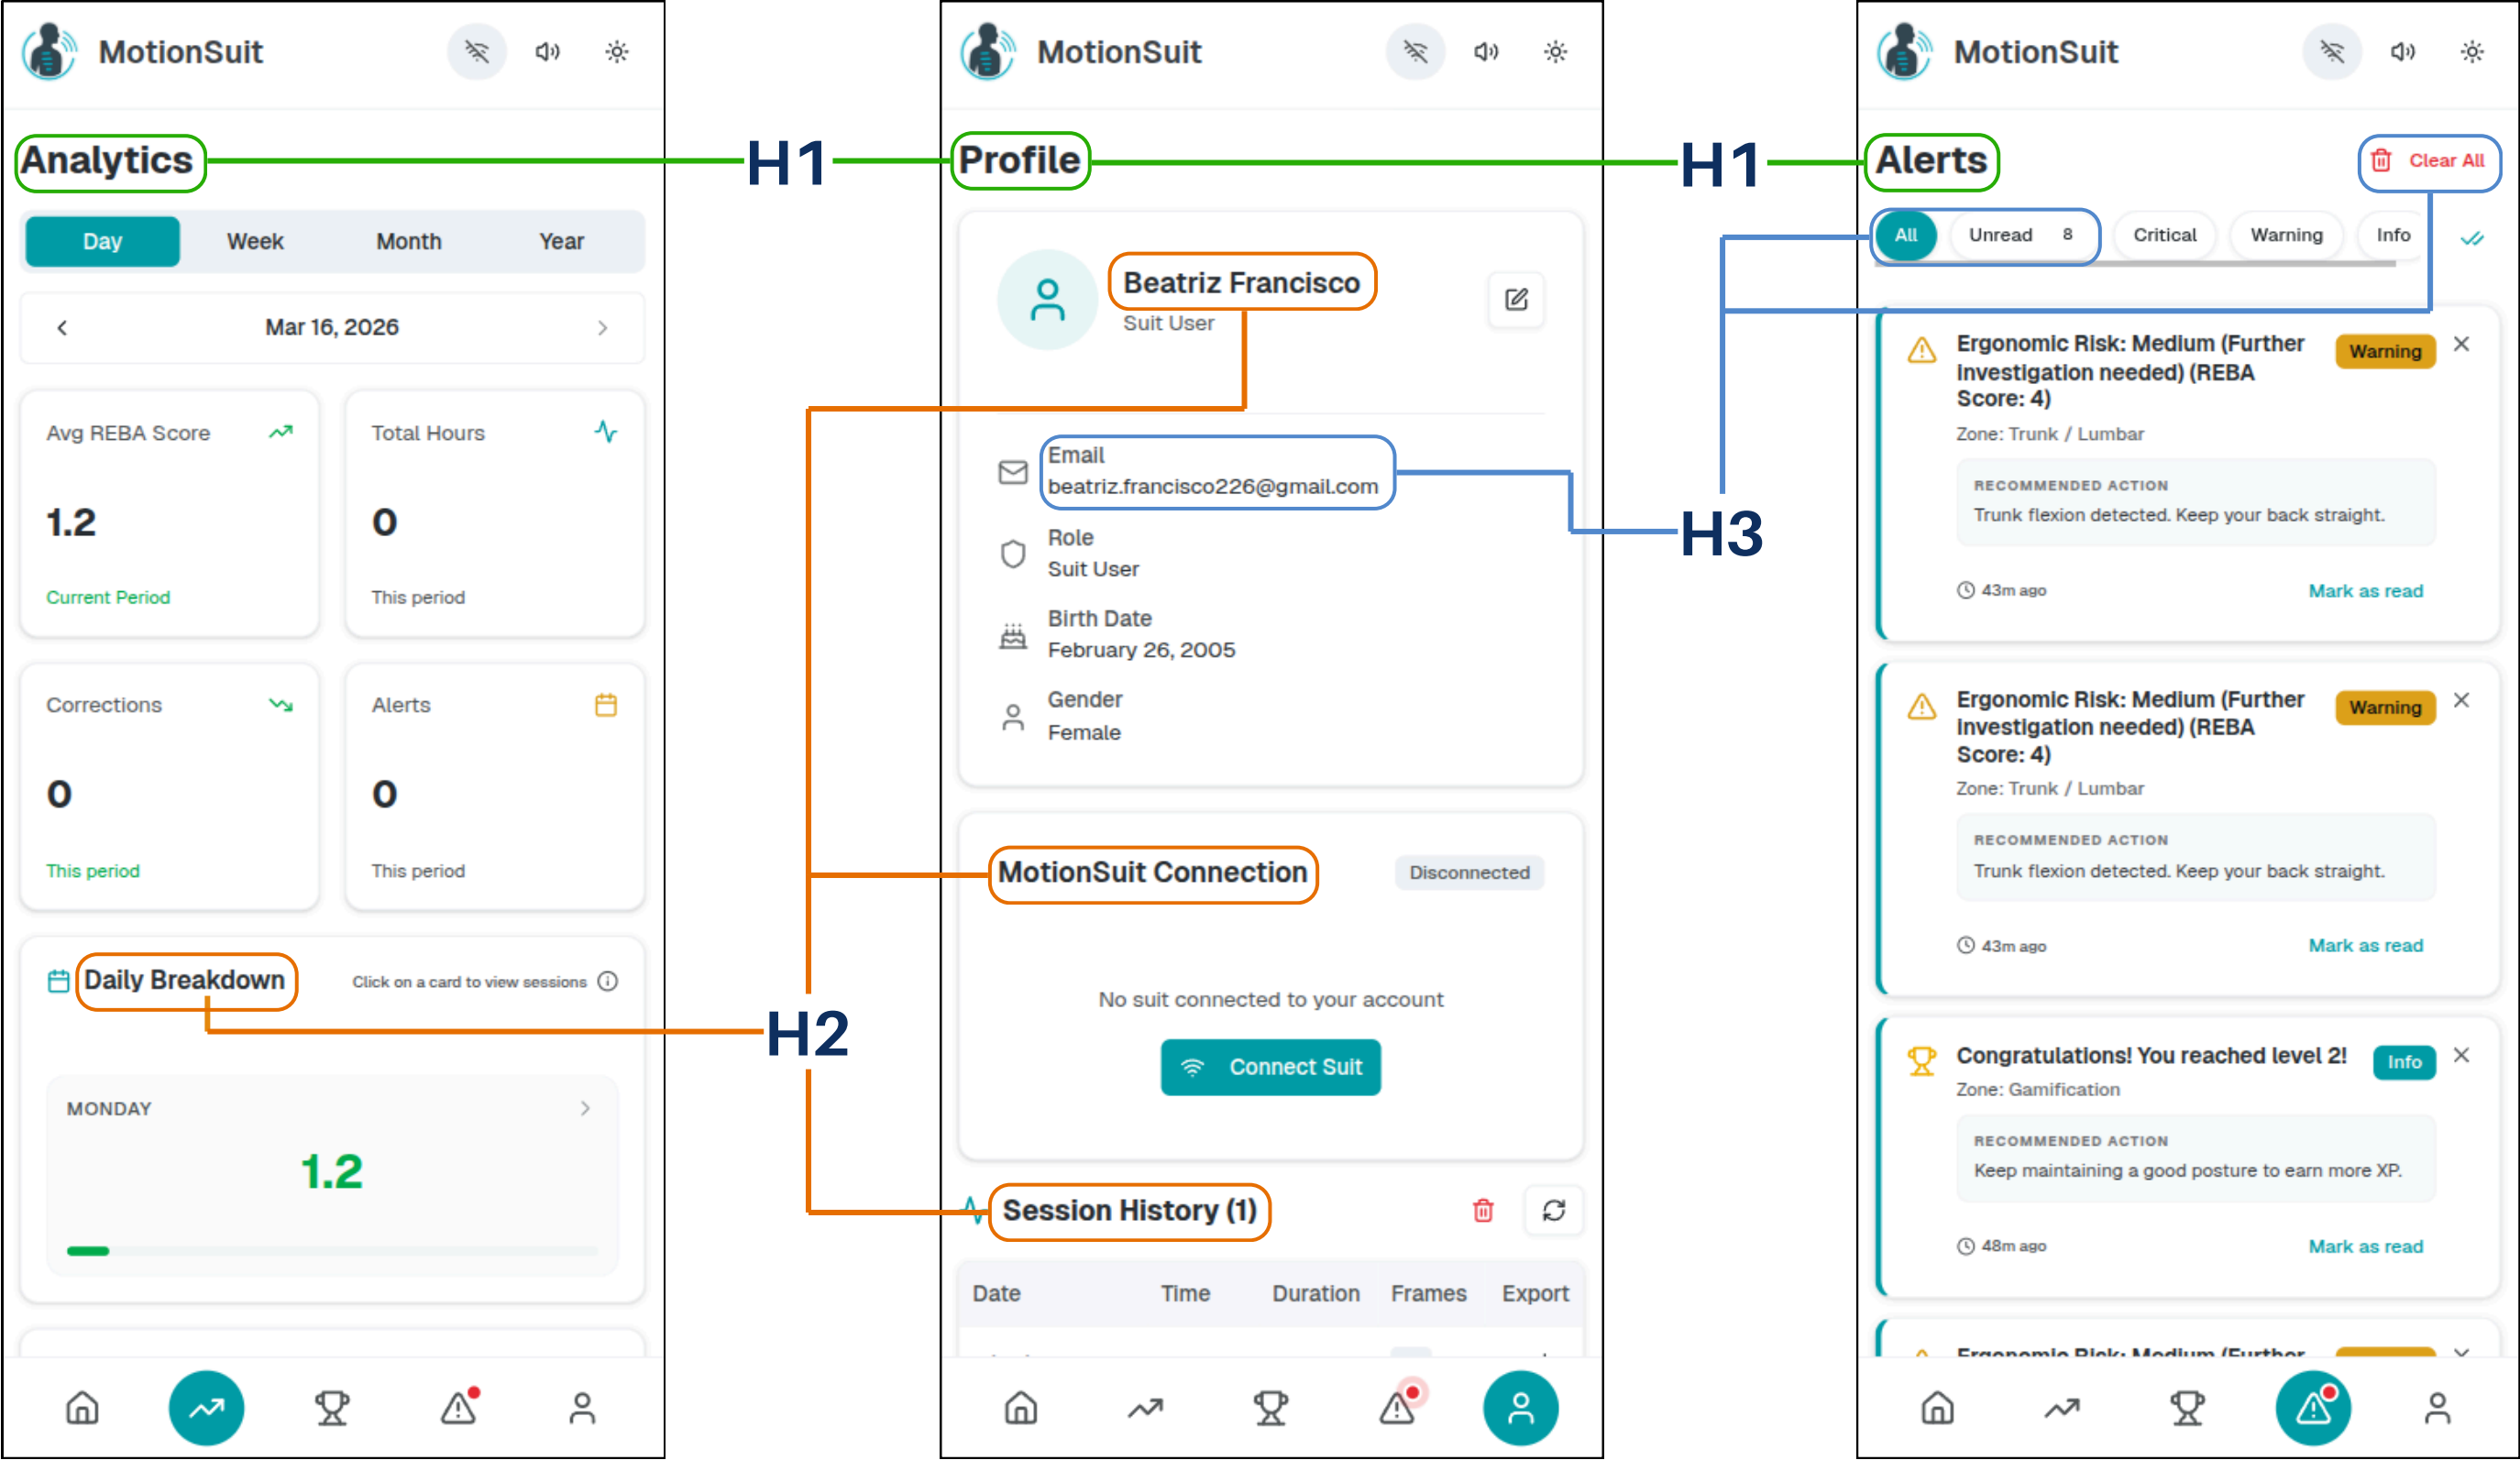

**Change the offline
color from red to
gray.**

**Change the goals
page icon**

**Implement a
hoverboard to improve
user perception.**

**There's a lot of
uniformity in the
admin dashboard.**

VISUAL HIERARCHY

PROGRESS

ANALYSIS

**USER
EXPERIENCE**

PROGRESS

ANALYSIS

1

REBA score

2

Track REBA
scores across
previous sessions

3

Alert system

USER
EXPERIENCE

PROGRESS

ANALYSIS

USER EXPERIENCE

- 1** Accessibility (tabs, text-to-voice, colorblind mode)
- 2** Adaptive dashboard (dark/light mode)
- 3** Gamification

TASKS

Admin

Researcher

Suit User

Suit User

Task 1: Create a new suit user account and set up the biometric profile.

Task 2: Connect a suit to the system and start a real-time monitoring session.

Task 3: Go to the Dashboard, observe the data and finish the session.

Task 4: Access the Session History and export the last session.

Task 5: Export sessions from the last 7 days in CSV format.

Task 6: Enable "Research Participation" option.

TASKS

Suit User

Researcher

Admin

Task 1: Create a new researcher account and check the account status.

Task 2: Review the list of pending researchers and approve the new researcher account request.

Task 3: Change the password for the researcher account.

Task 4: Verify the details of the suit user account and export the session data.

Task 5: Check the system status and export the sessions logs in JSON format.

INTERPRETATION

Suit User

Task 2: Connect a suit to the system and start a real-time monitoring session.

Did the user
completed the task
correctly?

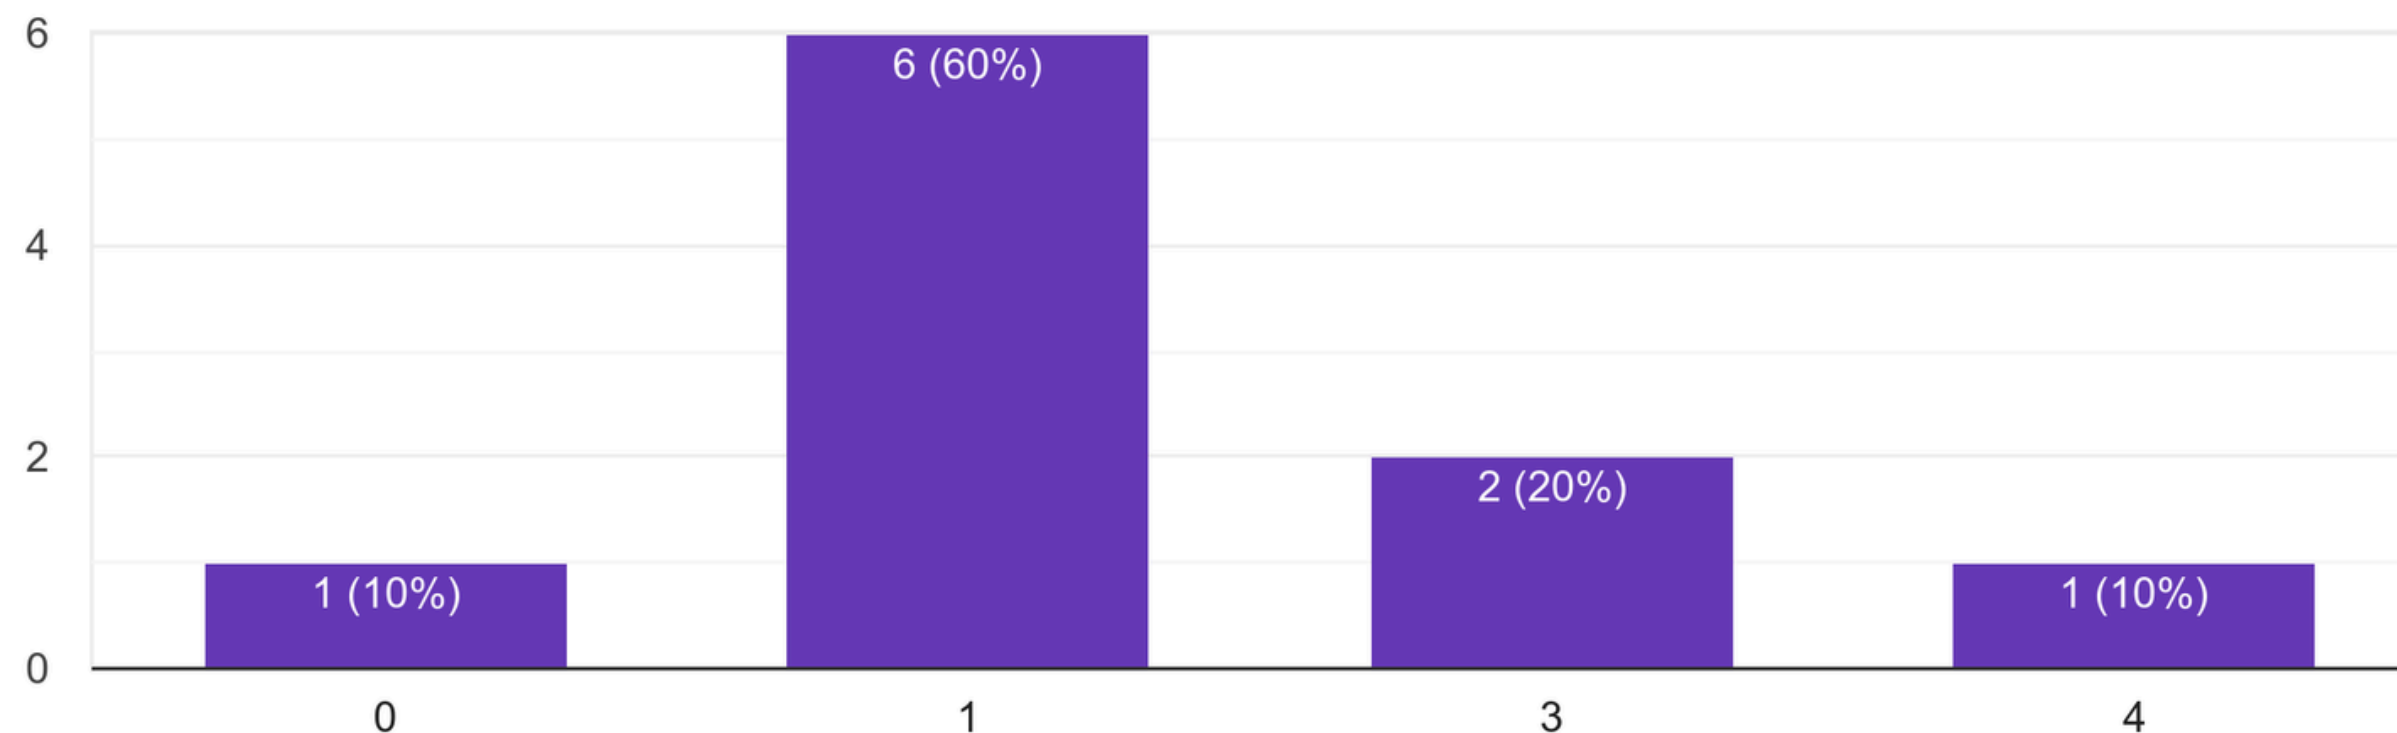

Yes → 100%
No → 0%

Was the user lost?

No → 10%
Slightly → 90%
A lot → 0%

Number of errors?

10 respostas

INTERPRETATION

Admin

Task 4: Verify the details of the suit user account and export the session data.

Did the user
completed the task
correctly?

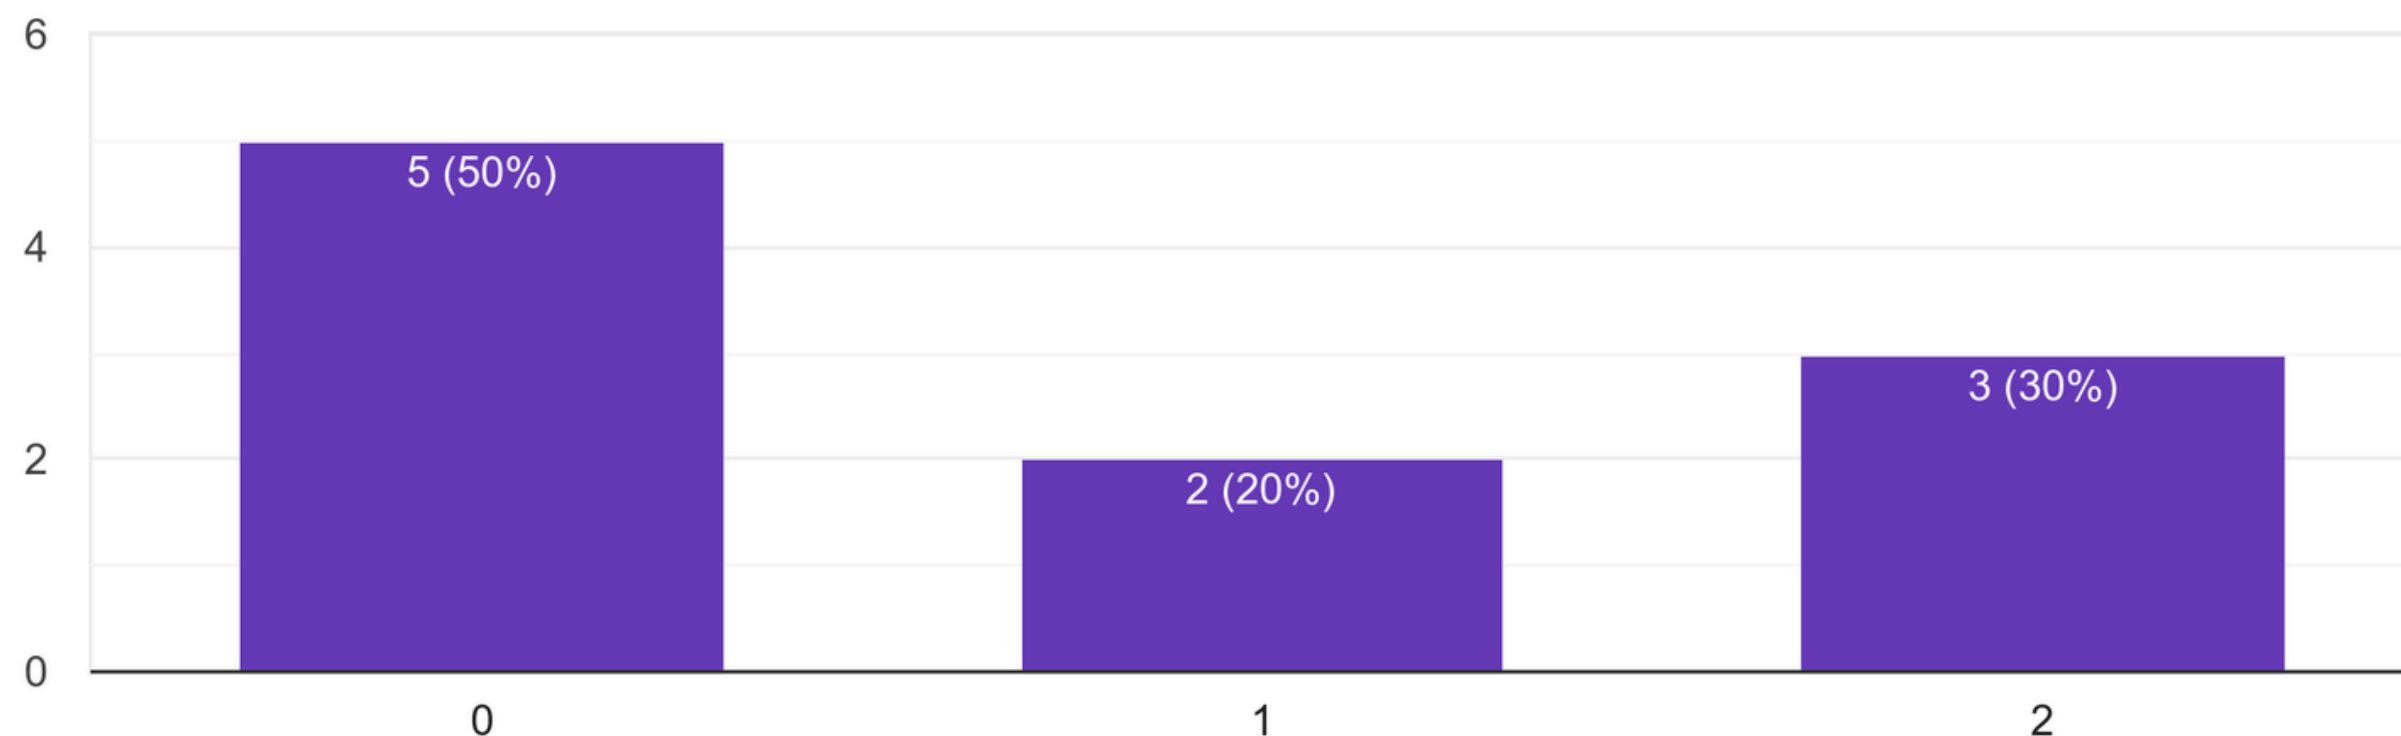

Yes → 100%
No → 0%

Was the user lost?

No → 50%
Slightly → 50%
A lot → 0%

Number of errors?
